An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Rathbun on 2/8/06.

In claim 1, line 1, change "A" to -A support system comprised of at least one deformable receptacle and a -; in line 2, after "one" insert -deformable-.

In claims 2,5, and 6, line 1, change "member (64)" to -system-.

In claim 46, line 1, change "43" to -45-.

The following is an examiner's statement of reasons for allowance: A personal interview with Mr. Rathbun and the inventors was held on 9/21/05, in which the invention, the claims and the prior art cited on PTO 892 was discussed. The formal Interview Summary was misplaced, but no agreement on claims was reached, and as summarized in the Remarks filed on 12/12/05, the "snapping" or deformation aspect of the invention was discussed. On 1/27/06 and 2/8/06 Mr. Rathbun and I discussed claim 1, and agreed to the above set limitations further clarifying the "snapping" nature of the connection between a cross rail and at least one cooperating receptacle. The claims presented in the amendment dated 12/12/06 recite the "snapping" or deformation aspect of the connection of the cross members, a feature not taught or suggested by the prior art of record, placing the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
